Vehicle Condition Summary

Vehicle TS008 is currently in excellent overall condition, with an overall health score of 100.0% based on 12 monitored parameters.

- 12 of 12 parameters, including Engine Temperature (°C), Engine Oil Life (%), Engine Oil Temperature (°C), Front Brake Wear (%), Rear Brake Wear (%), Brake Fluid Condition (%), Battery Voltage (V), Charging Voltage (V), Mileage Since Last Service (km), Engine (Rotations Per Minute), Coolant Temperature (°C) and Engine (Hours), are operating within their ideal range and require no action at this time.
- No parameters are currently in a critical state, so there are no immediate safety concerns as of this report.
